

RADAR CONNECT

Designed for businesses with a zero tolerance of pests, RADAR Connect delivers continuous monitoring and immediate containment of mice infestations.

RADAR Connect forms part of Rentokil's award winning PestConnect system, which also comprises of Rat Riddance Connect and Dual AutoGate Connect, which bring a new level of value and protection to customers.

Enhanced Monitoring

Can be used as part of an effective integrated pest management solution for mice, this enables enhanced monitoring and protection.

Effective and Immediate Treatment

A bait free, humane mouse trap, RADAR captures and hygienically contains mice, reducing any risk of contamination.

Effective Monitoring

Unique to Rentokil, the RADAR units make use of leading infrared technology to monitor and protect your premises.

Instant Response

In the event of pest activity, Rentokil technicians will promptly remove mice from the units, inspect the area to determine points of entry and recommend preventative measures.
