

## Vehicle Disinfection Service

### Vehicle Disinfection Service

Our qualified technicians are equipped with the necessary personal protective equipment, respiratory protective equipment and specialist disinfection equipment to work safely and effectively.

Our vehicle disinfection service is professional and legally compliant. Treatment can provide residual protection and biosecurity reassurance between cleans.

#### All Purpose Disinfection Solution On Site (Drive Through Option)

- Internal Touchpoint Clean
- External Touchpoint Clean
- Spraying/Fogging of Internal Passenger Cabin
- Wipe Leather & Plastic
- Spray and Wipe Rear Cab (Vans Only)

#### All Purpose Disinfection Solution Off Site

- Internal Touchpoint Clean
- External Touchpoint Clean
- Spraying/Fogging of Internal Passenger Cabin
- Wipe Leather & Plastic
- Spray and Wipe Rear Cab (Vans Only)

The Rentokil Vehicle Disinfection service utilises specially formulated micro emulsion technology that applies an active **Barrier** which can persist and kill for hours afterward.

Our suppliers Laboratory testing showed the barrier killing pathogens 72 hours after it was applied.

So long as the barrier is not wiped off, our treatment provides **residual** protection and **biosecurity** reassurance between cleans.

#### What Industry Types We Can Support?

- Commercial Fleets
- Emergency Vehicles
- Local Authority Vehicles
- Utility Service Vehicles
- Transport and Logistic Vehicles

#### What PPE is worn by our team?

All appropriate PPE for specialised service are worn by our technicians, including gloves, boots, masks and coveralls.

#### COVID-19 SPECIFIC NOTES:

Hand Hygiene, Respiratory Etiquette and Social Distancing are the pillars of the community response.

#### Disinfection is no substitute.

Novel Coronavirus (SARS-CoV2) is new: No testing has been carried out on this specific strain yet.

Our treatment has been tested on another Coronavirus strain of the same family as SARS-CoV2 (Coronaviridae - Feline Coronavirus).
