

## Luminos 1 Pro

### Introducing the new Luminos 1 Pro Cost effective fly control

Luminos 1 Pro is a highly effective glue board unit that has been designed for relatively low risk areas within food retail operations, allowing for wall mounted or flat surface installation.

Within the unit's modern exterior lies a powerful 36W UV-A lamp that attracts all types of flying insects, which are then captured on one of the two glue boards provided with the unit.

By trapping the insects, Luminos 1 Pro avoids the problems of insect fragments that can occur when using traditional fly killer units.

#### Benefit to your business

- Highly effective – eliminates the nuisance caused by flying insects.
- Discreet, unobtrusive design – can be used in public areas.
- Safe and hygienic – no pesticides or flying insect fragments.
- Provides peace of mind – fulfils legal and health & safety requirements.
- Adaptable – can be wall-mounted or sited on a flat surface, using an additional bracket.

#### Suitable for a range of food retail operations including:

- Cafés
- Bakeries
- Delicatessens
- Take-aways

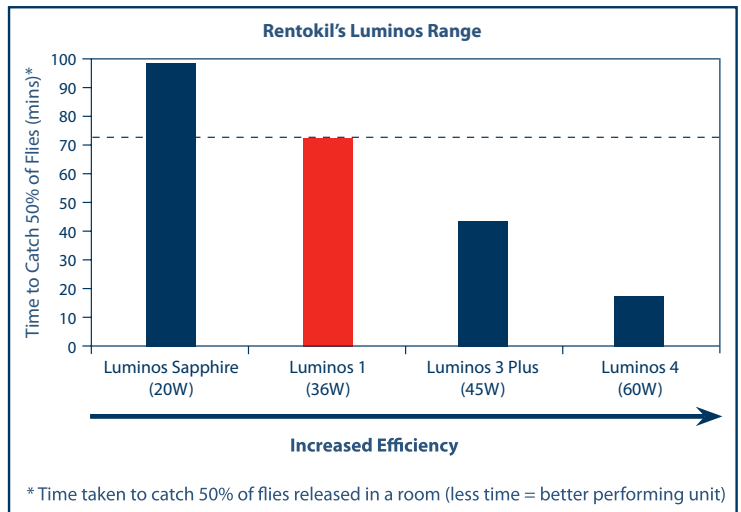

## Luminos 1 Pro

### Cost effective flying insect control

#### Effectiveness at a reasonable price

A series of tests carried out on Rentokil's Luminos range and competitor units showed that the Luminos 1 Pro outperforms a range of competitor products.

The graph opposite reflects the calculated "Half Life Time" for Rentokil's Luminos range. This test measures how quickly a unit catches 50% of flies in an area, and uses this as a proxy for overall effectiveness. The data indicates that Luminos 1 Pro is effective in low risk areas, whilst Luminos 3 or Luminos 4 would be recommended in higher risk areas.

#### Technical specification

Luminos 1 Pro conforms to all relevant European electrical and UV safety standards.

To ensure optimum performance, the glue boards should be replaced at regular intervals, dependent on infestation levels. The lamp should be replaced annually at the beginning of the fly season.

The unit is supplied ready to use, with the 36W lamp and 2 glue boards.

#### Luminos 1 Pro

Dimensions (H,W,D)	480mm x 110mm x 250mm
Weight	4kg (Unboxed)
Lamp	1 x 36W PL Powerline UV-A
Electrical Supply	200-240V / 50-60Hz
Mounting	Wall mounted or tabletop using the fixing bracket
Material	Plastic injection moulded housing and metal chassis. Lamp is shatterproof sleeved
Guarantee	2 years
